

CALL FOR PAPERS

Open Access journal “**Computers**” (ISSN: 2073-431X, CiteScore 5.4, IF 2.6)

Special Issue "**Blockchain Technology – a Breakthrough Innovation for Modern Industries**" (Second Edition)

Building on the success of the first edition, *Computers*, an Open Access journal (ISSN 2073-431X, CiteScore 5.4, IF 2.6) is pleased to announce the second edition of the important Special Issue "**Blockchain Technology – a Breakthrough Innovation for Modern Industries**":

https://www.mdpi.com/journal/computers/special_issues/KNRJJQV3UI

Ph.D. Dr. Nino Adamashvili (the University of Palermo, Italy), **Prof. Dr. Radu State** (the University of Luxembourg, Luxembourg), **Prof. Caterina Tricase** (the University of Foggia, Italy), and **Dr. Roberto Tonelli** (the University of Cagliari, Italy) are serving as Guest Editors.

Guest Editors cordially invite you to submit a paper to this Special Issue. It could be a full review or an original research article that delve into the transformative role of blockchain technology in revolutionizing supply chains. Submissions may address technical, managerial, or policy aspects of blockchain implementation, with a particular focus on its potential to enhance resilience, transparency, and sustainability in various industries.

Computers is fully open access (unlimited and free access by readers) that increases publicity and promotes more frequent citations, as indicated by several studies.

The submission deadline is **20 September 2025**. Papers may be submitted immediately or at any point until the deadline as papers will be published on an ongoing basis. In the case you plan to accept this offer, if possible, we expect to receive your tentative title and submission date.

For further details on the submission process, please see the instructions for authors at the journal website <https://www.mdpi.com/journal/computers/instructions>

About “Computers”

Computers (ISSN 2073-431X, <https://www.mdpi.com/journal/computers>) is a journal published by MDPI. “Computers” maintains rigorous peer-review and a rapid publication process.
